NEW FORCING ROSE,

BRIDESMAID.

Here we have a new Rose, a sport from that old standby, Catherine Mermet. This variety retains all the good qualities of the parent, besides adding charms not possessed by the sweet Catherine. All know that Catherine Mermet takes precedence as a pink Rose. More plants of it are cultivated by the amateur, and more cut bloom is sold by the flower dealer of it than any pink Rose. Why? because the bud is of exquisite shape and contour, so solid and firm, and the stems are so long and stiff that no other Rose will compare with it in keeping qualities after being cut. It has, though with all these good qualities, a serious defect, namely, the bud is of a color that will not keep. This is noticeable more in dark, cloudy weather, but true of the Rose at all times. Now, this is why the Bridesmaid will supersede the Mermet. It is about two weeks later, in bloom, and will keep as well as any Rose now in the market. It is a very fine Rose, flowers large and double, with beautiful long buds. Color a fiery red, mingled with silvery-crimson. Price, 10 cents each; 50 cents per dozen; $1.00 per hundred; four inch pots, $1.50 per dozen.

NEW TEA ROSE, Forster Bismarck.

A very variable-colored Rose, changing from China Rose color to cherry red, the whole suffused with lemon. A strong, vigorous, new variety from Germany. This is a very promising variety, one of the best new Roses. We have a fine stock. Price, one-half inch pots, 15 cents each; 75 cents per dozen; $6.00 per hundred.

NEW FOREIGN ROSE, Ernest Netz.

Robust in growth, flowers very large when open, long, pointed petals produced on long stems. Color rosy-carmine, with the color heightened in the center. Variety extra. Price, 10 cents each; 50 cents per dozen; $1.00 per hundred; four inch pots, $1.50 per dozen.

NEW TEA ROSE, Souvenir d'Auguste Legros.

A very fine grower; flowers large and double, with beautiful long buds. Color a fiery red, mingled with silvery-crimson. Price, 10 cents each; 75 cents per dozen; $5.00 per hundred.

NEW FORCING ROSE, Madame Hoste.

This Rose with us more than justifies our predictions regarding it. It is of large size, fine form, and remarkably free in the production of bloom. It possesses all the requisites of a first-class forcing Rose, viz: strong, vigorous growth; large, well-formed buds, freely produced. We believe this Rose to be one that will continue to assert its claims until it is generally grown as Perle or Splendor. Our experience shows that it does best in a strong clay loam—much better than in a lighter mixture. It is very susceptible to stimulants, and enjoys a good quantity of fertilizer. Price, two and a half inch pots, 10 cents each; 50 cents per dozen; $1.00 per hundred.

NEW TEA ROSE, Madeleine d'Aoust.

Very strong and vigorous growth, flowers large double and graceful in form. This Rose is of two colors, one-half the outer petals being pale flesh color and the center nankeen yellow, varying from a light to a dark shade. This beautiful and remarkable Rose possesses the colors of two Roses, William Allen Richardson and Souvenir de la Malmaison. Price, 10 cents each; $1.00 per dozen; $7.00 per hundred.

NEW TEA ROSE, J. B. Yarrone.

A fine grower, flower very large and double, with high center opening from long buds. Color a soft China rose, changing to bright, deep carmine of even shading. An extra good Rose, and very sweet. Much superior to Lucile, which it greatly favors, but of a better growth and much freer in blooming qualities. A grand new Rose. Price, 15 cents each; $1.00 per dozen; $3.00 per hundred.
New Ever-Blooming Rose, Climbing Niphetos.

There has never been but one point that held that glorious old Rose, Niphetos, in the background, and that was the serious defect of its being a weak grower, and this defect is now remedied. We have a vigorous climbing growth, coupled with all the charms of Niphetos. It has always held the lead as being the most elegant of white Roses. The buds on well-grown specimens measure four inches in length, and are produced in the greatest profusion. It is positively startling in size and purity. This Rose has our highest praise. Price, 15 cents each; $1.00 per dozen; $7.00 per hundred.

New Forcing Rose, Souvenir of Woolton.

An American variety of great promise, with the following good qualities: (1) Color velvety-red, equal to Jaquemont; (2) perfume which cannot be excelled; (3) continuous flowering qualities; (4) the most prolific bloomer in existence, every shoot containing a flower bud; (5) habit exceedingly vigorous, and in foliage quite equal to American Beauty; (6) it never makes imperfect buds, and the dark weather but deepens the color, giving it a richer shade of crimson; (7) it is a full, double Rose, and is good in bud, half open, or fully expanded. Full open flowers frequently are six inches in diameter. A most excellent Rose. Price, two and a half inch pots, 10 cents each; 50 cents per dozen; $5.00 per hundred; four inch pots, $2.00 per dozen.

New Forcing Rose, Meteor.

A velvety-red ever-bloomer of the deepest glowing crimson, as fine as a Hybrid. Flower of medium size, very double, and petals slightly recurving. A beautiful open Rose, a free bloomer, and promising well as a pot Rose. It has no tinge of violet or purple to mar its beauty (as Bennett often has), it does not come minus a stem, as Duke of Connaught so often does, but promises to be a reliable dark-red forcing variety, and is being used extensively for that variety. Price, two and a half inch pots, 10 cents each; 50 cents per dozen; $4.00 per hundred; four inch pots, $1.50 per dozen.

A strong-growing Rose, with small, closely-set, dark foliage, and medium-sized flowers of the brightest scarlet and velvety texture. A single bud or blossom will catch the eye at a great distance, so brilliant is the color. It is as free in bloom as Bon Silemo, and unmatched in color, which fully atones for its lack of size. Price, 10 cents each; 50 cents per dozen; $4.00 per hundred.

NEW TEA ROSE,

THE QUEEN.

A most charming Tea Rose. The offspring of that fine old Rose, Souvenir d'un Ami, whose many good qualities it seems to possess in a remarkable degree. It is pure snow-white, makes good, finely-formed buds, is quite full, showing the center but slightly when fully open. The petals are thick and of good substance, opens well, very sweet, and has proved valuable, both for forcing and open ground planting. We recommend it for extended trial, as it will be found a valuable acquisition to our list of pure white ever-blooming Roses.

Price, two and a half inch pots, 10 cents each; 50 cents per dozen; $4.00 per hundred; four inch pots, $2.00 per dozen.

California’s New Striped Rose, "RAINBOW."

A few years ago the professional florist would have laughed at the idea of a variegated Rose should any one have mentioned it to him. Imagine a lovely pink Rose blotched and streaked with the darkest crimson, at the same time only enough to add to its beauty, with base of petals a rich amber. It is a most beautiful Rose, and attracts universal attention. The buds are long and handsome, having the same erect habit of growth as Papa Gontier, from which it is a sport. The "Rainbow" answers the above description, and has been recognized by the highest award of the California State Floral Society. Price, fine plants, 10 cents each; $1.00 per dozen; $8.00 per hundred.

New Climbing Rose, Waltham Queen.

(Waltham Climber No. 3.) This splendid new ever-blooming Climbing Rose is introduced from England, where it has given great satisfaction. It is a valuable acquisition, particularly for the South and Pacific Coast, and though not entirely hardy in the North, it will probably do well in many situations in the Middle States. It is a strong grower and continuous bloomer. Nothing can compare with this for beauty of bud and foliage, and it literally lavishes in the greatest profusion its beautiful, rich, red flowers of magnificent size. This Rose has been awarded first premium wherever exhibited. It has our highest praise. Price, two and a half inch pots, 15 cents each; $1.25 per dozen; $10.00 per hundred.

New Tea Rose, Jeanne Guillaumee.

A very vigorous grower, flower large and double, of good form, with beautiful, long buds. Color clear red, touched with salmon; center a coppery-red, with pale silvery shadings. Received first-class certificate from the Lyons Horticultural Society. Price, 10 cents each; 60 cents per dozen; $5.00 per hundred.

Climbing Devoniensis.

Similar to Devoniensis, except that it is a vigorous climber. Price, 10 cents each; 75 cents per dozen; $5.00 per hundred.
Champion City Greenhouses, Springfield, Ohio.

New Forcing Rose, Grace Darling.

One of the most elegant Roses ever our pleasure to behold. Strong, vigorous grower; color a porcelain rose, elegance shaded with vigorous crimson, a decided color, but never quite obscuring the ground of yellow upon which it rests. The colors seem to stand out separate and distinct. Very sweet. A veritable beauty. Price, two and a half inch pots, 10 cents each; 60 cents per dozen; $5.00 per hundred.

New Forcing Rose, Striped La France.

(Madame Angélique Veynet.) Everybody knows the beautiful La France—a Rose that has always had such a ready sale that the demand has never been fully met. Striped La France combines all the good qualities of La France in growth, fragrance, shape of bud and flower; in fact, differs from it except in two points. First, it is freer in bloom than the parent; second, it is intricately striped, the marking being plain and distinct, and the variegation a beautiful bright rose on a satin-pink ground. We planted several thousands to test them, and the many thousands of our friends who have seen it prefer it to La France, as being a more pleasing shade, that were possible. This Rose has received several gold medals and special certificates of merit, as shown before the Rose societies of this country as well as Europe. In ordering this you are not only getting a novelty in the way of a striped Rose, but a Rose that is sterling in every good quality. The fact of the Florists buying more of it for their own use than any of the new Roses offered should convince every one that it is bound to become popular. Perfectly hardy. Price, two and a half inch pots, 15 cents each; $1.00 per dozen; $8.00 per hundred.

New Tea Rose, "Snowflake."

(Marie Lambert.) This is a lovely white Rose, a pure Tea, the finest flowering white Rose we have seen. It will be especially useful in set designs. For a pot plant it cannot be excelled, as it possesses every good quality of a pot Rose. We counted on one plant one hundred and forty-three buds and flowers in a single day, and the plant was only nine months old. It can be used in place of white Carnations for set pieces at an immense saving, because it can be bloomed profitably at one dollar per one hundred buds. Not only will it cover twice and three times the space, in a funeral design for instance, that a Carnation covers, but will give greatly superior results. Price, 10 cents each; 50 cents per dozen; $4.00 per hundred.

New Hybrid Tea Rose, La France de '98.

 Pronounced by all the noted French Rosarians as the most remarkable Hybrid Tea of late years. One notable peculiarity of this variety is its long, elegant buds which are often two or three inches long, while the expanded flowers are of immense size. Another strong point is its bright color, which is very nearly scarlet, sometimes lined and bordered with pure white. Still another point in its favor is the sweet fragrance—a precious trait in the Rose. Undoubtedly a Rose of enchanting beauty. It will please you. Price, two and a half inch pots, 15 cents each; $1.50 per dozen; $10.00 per hundred.

New Hybrid Tea Rose, La France de '98.

 Originated and sent out by Jean Pernet, one of the most celebrated Rose growers of France, who has already given us some very beautiful Roses, but considers this the triumph of his life (the name translated would read, "Triumph of Father Pernet") and besides his endorsement it has received the commendation of the highest European authorities, and as far as we can judge it is well worthy of them, and promises to be one of the very finest of the Hybrid Tea class. The flowers are extra large having broad, thick petals, and long, tapering buds, with delicious Tea fragrance. Color a fine, clear magenta red, sometimes passing to a bright crimson. Very striking and beautiful, and of such good substance that the flowers retain their beauty for a long time. Very brilliant and beautiful. Price, two and a half inch pots, 15 cents each; $1.50 per dozen; $10.00 per hundred.

New Hybrid Tea Rose, La France de '98.

 Pronounced by all the noted French Rosarians as the most remarkable Hybrid Tea of late years. One notable peculiarity of this variety is its long, elegant buds which are often two or three inches long, while the expanded flowers are of immense size. Another strong point is its bright color, which is very nearly scarlet, sometimes lined and bordered with pure white. Still another point in its favor is the sweet fragrance—a precious trait in the Rose. Undoubtedly a Rose of enchanting beauty. It will please you. Price, two and a half inch pots, 15 cents each; $1.50 per dozen; $10.00 per hundred.
NEW BOURBON ROSE,
CROWN PRINCESS VICTORIA.

(The White Malmaison.) This Rose has our highest commendation. It is a vigorous grower, with large, fine foliage, and is one of the loveliest of all Roses. The color is a pure, waxy snow-white, sometimes has a lemon tint, and to those who desire a fine double flower when fully expanded, this will meet your wants, as it is very beautiful when fully blown. Certainly a grand acquisition. Resembles that grand old Rose “Malmaison” in shape and fullness. The best white Rose we have to offer you. Price, 15 cents each; $1.00 per dozen; $7.00 per hundred.

New Hybrid Tea Rose, Viscountess Folkestone.

No Rose in our Catalogue has grown in popularity during the past year like Folkestone. It is unsurpassed among light colored varieties. It is graceful to the last degree, with strong, heavy foliage. The flower is delicately tinted flesh, almost white, and lustrous as satin. When in full bloom it is like a fine white Paony, but without a suggestion of stiffness. It is the only rival of La France. Sweet-scented. We have a fine stock of this most superb Rose. Price, strong plants, two and a half inch pots, 10 cents each; 50 cents per dozen; $4.00 per hundred; four inch pots, $1.50 per dozen; $12.00 per hundred.

Hybrid Tea Rose, La France.

We have always given this the first place, the Queen of all the Roses. Accounts come to us from all quarters every year describing the great profusion of its bloom from June until frost, and extolling its fragrance and immense size. It is of superb form, and double as a Rose can be. No variety can surpass it in delicate coloring—silver rose shades, with pink. It has a satin sheen over all its petals. It is universally regarded as the most useful of Roses, for it is hardly beyond question. It blooms continuously. The flower is large, finely built, endures for a great length of time, is exquisite colored, and fragrant in the highest degree. Another Rose of which one cannot have too many. Price, two and a half inch pots, 10 cents each; 50 cents per dozen; $1.00 per hundred; four inch pots, $2.00 per dozen; $15.00 per hundred.

Hybrid Tea Rose, Pierre Guillot.

One of the finest and most valuable in the whole list. A bright, dazzling crimson, passing to brilliant carmine. Flowers large, very double and full, and highly scented. A healthy and vigorous grower, and a constant bloomer from June until frost. The outer petals are broad, round and decidedly recurved, showing the short, closely-set inner petals. Among the few ever-bloomers this ranks very near the front. It is double, without a tinge of disagreeable shade, and always in bloom. A fine stock of this. Price, two and a half inch pots, 10 cts. each; 50 cts. per dozen; $3.00 per hundred.
NEW HYBRID TEA ROSE,

AUGUSTINE GUINNOISEAU,

OR WHITE LA FRANCE.

Here we have a beauty indeed, one we can recommend to all, whether for outdoor culture or for pots in the house in Winter. If you were to ask us to select six of the very finest Roses for you, we should be sure to include it in the six. Do you know La France? If so, you know this elegant new Rose. It is identical with La France except the color. It is pearly-white, sometimes tinted with fawn. Thousands of persons who have visited our grounds last Summer have been startled with the beauty of this Rose, one and all exclaiming — What beautiful Rose is this?" We predict for it far more popularity than La France ever attained. Don't fail to get his new Rose. Price, 10 cents each; 65 cents per dozen; $5.00 per hundred.

New Tea Rose, Madame Etienne.

One of the very finest of clear pink Tea Roses. The form of the flower is quite similar to that of Beatrice—that is, the petals recurve, giving it the shape of the Camellia. The texture is heavy, and the color is a warm, yet delicate pink, slightly deeper on the edge of the petal. A very beautiful variety, and freer in bloom than Catherine Mermet. This Rose is styled the Dwarf Mermet by French growers. Price; 10 cents each; 50 cents per dozen; $4.00 per hundred.

New Rose, Climbing Perle des Jardins.

Identical with Perle des Jardins, except that it is a vigorous climber. A grand addition to our Roses. It will rank with the very best. Price, 15 cents each; $1.50 per dozen; $12.00 per hundred.
New Tea Rose, 

**Sappho.**

Buds fawn color, suffused with rose, the opening flowers shaded yellow and tawny-buff, centers deep, bright yellow, large, full and globular. It produces blooms with extraordinary profusion, even for a Tea Rose. The petals are large and of much substance. A splendid Rose to keep after being cut. This we commend as being one of the prettiest and sweetest Roses ever brought before the public. Certainly grand, it has our highest praise. Price, 10 cents each; 50 cents per dozen; $1.00 per hundred.

Madame Weilhe.

An extra fine variety, very large, double, and of beautiful, rounded form, a soft, pale yellow, sometimes cream, with short inner petals of glowing orange and copper. Not to be forgotten if once seen. **Price, two and a half inch pots, 10 cents each; 50 cents per dozen; $1.00 per hundred; four inch pots; $1.50 per dozen; $12 per hundred.**

Lovers of that grand Rose "Perle des Jardins" will be glad that we have now a pure ivory white "Pearl of the Gardens." We have given it a long trial, and believe it is an ideal Rose. It has foliage darker and rougher than Perle, throws up long, slender, stiff canes, each one bearing a pure white bud of something more than medium size, and quite upright. Every flower can be cut with a very long, closely-foliaged stem, which we consider a strong point of beauty in a Rose. It has the delicate Tea fragrance. We think that every lover of white Tea Roses will be delighted with White Perle. It will be found totally distinct from Bride, or any other white Rose. A great Rose. **Price, two and a half inch pots, 10 cents each; $1.00 per dozen; $5.00 per hundred.**

The color varies from magenta to silver-violet or crimson. A nice habituated grower, with large, double flowers. An improved Therese Loewet. **Price, 10 cents each; 60 cents per dozen; $5.00 per hundred.**

New Tea Rose, Marion Dingee.

Undoubtedly the finest crimson Tea Rose now known. This magnificent Rose was originated by Mr. John Cook, of Baltimore, Maryland, who is widely known as one of the best judges and most skillful hybridizers of the Rose in this country. Mr. Cook considered this his most valuable variety, and for a long time kept it for his own exclusive use, growing it largely for cut flowers. Marion Dingee is a cross between **Comtesse de Casserta** and **Duchess of Edinburgh.** The Casserta blood is shown most in the foliage and habit of growth, while the flowers have much of the brilliant coloring and somewhat the form of Duchess of Edinburgh, but are altogether different and much more striking. The Marion Dingee is a strong, vigorous grower, making a handsome, well-balanced plant, with large, thick deep green leaves. The flowers are large, beautifully cup-shaped, moderately full, and borne in such wonderful profusion that visitors often remark: "I never saw so many buds and flowers on one bush," and Mr. Cook testifies "it is always growing and blooming, and never without flowers during the whole growing season." In fact, we scarcely know of any other Rose that will produce so many perfect flowers in a given time, and whether in open ground or under glass it is a most constant bloomer. The flowers are borne nearly upright on long, straight stems, and are of excellent substance, having thick, leathery petals, which hold their form and color for a long time. The color is perhaps its most remarkable feature. It is a deep, brilliant crimson, one of the darkest, if not the very darkest, and richly-colored Tea Rose in existence, and we have no hesitation in asserting our belief that it is undoubtedly the finest crimson Tea Rose now known. **Price, two and a half inch pots, 15 cents each; $1.25 per dozen; $10.00 per hundred.**

Hybrid Tea Rose, Beauty of Stapleford.

The flowers are very large and of perfect form, deliciously scented. Tea fragrance. Color a clear, bright pink, shading to a bright, rosy-crimson. It makes large and beautiful buds, and is a constant and profuse bloomer. **Price, two and a half inch pots, 10 cents each; 50 cents per dozen; $1.50 per dozen; $12.00 per hundred.**
New Tea Rose, Madame Elle Lambert.

A wonderful, beautiful new Tea Rose. The colors are not particularly remarkable—scarcely unusual—and yet we have found it so fascinating that we named it one of the most beautiful and valuable Roses of which we have any knowledge.

The flowers are extra large, fine, globular form, very fragrant. Price, $12.00 per dozen; each pot, $4.00 per hundred; four inch pots, $1.50 per dozen; $12.00 per hundred.

Saffron. A bright Apricot yellow, changing to orange fawn. Very much esteemed. Price, 10 cents each; 50 cents per dozen; $1.00 per hundred; four inch pots, $1.50 per dozen; $12.00 per hundred.

New Tea Rose, Madame Scipion Cotech.

A very charming and beautiful Tea Rose of more than usual merit. Color: a soft Primrose yellow, with Rose shadings. Delightful, large-centered and very unique in the size and shape of its buds. As this belongs to the Duchess de Tabarant series, it is the most beautiful and valuable Rose of its section. Price, 10 cents each; 50 cents per dozen; $5.00 per hundred; four inch pots, $1.50 per dozen; $12.00 per hundred.

Madame Andre Duron.

Color a beautiful bright red, without shadings. One of the most beautiful Roses of the year, and gives unusual promise of being fine under glass. We had blooms last season as well or better than any of the Finest American Roses. Price, two half inch pots, 10 cents each; 50 cents per dozen; $1.00 per hundred; four inch pots, $2.00 per dozen; $15.00 per hundred.

Forcing Rose. The Bride.

A lovely pure white, very fragrant Rose, admirably adapted for forcing. The buds have more substance than Niphotex, are very full and double, and possess the good colors and characteristics of the American Rose. Price, two half inch pots, 10 cents each; 50 cents per dozen; $1.00 per hundred; four inch pots, $1.50 per dozen; $12.00 per hundred.

New Tea Rose, Madame Philomena Cook.

A very thrifty, strong-growing Tea Rose, producing cup-shaped flowers in the greatest profusion. Color, rose, blended with salmon, and suffused with a lighter shade. Price, two half inch pots, 10 cents each; 50 cents per dozen; $1.00 per hundred; four inch pots, $1.50 per dozen; $12.00 per hundred.

New Tea Rose, Comtesse de Frigonner.

In color charming: in freedom of bloom second to none. The buds are large, very much full, and of good size. The color is a deep golden-yellow, with soft shade inside of petal. As a yellow Rose this takes rank next to Madame Duron. Price, two and a half inch pots, 10 cents each; 50 cents per dozen; $1.00 per hundred; four inch pots, $1.50 per dozen; $12.00 per hundred.

New Tea Rose, Princess Nobsenzonian.

A very beautiful Rose, with beautiful foliage, dark and large; flowers very large, more than semi-double, of perfect form, often produced in clusters. Color a bright, deep, sahiny-red, with lighter center. Price, two and a half inch pots, 10 cents each; 50 cents per dozen; $1.00 per hundred; four inch pots, $1.50 per dozen; $12.00 per hundred.
Monsieur Fantado.

Deep sulphur-yellow, described by Mr. Ellwonger as the best yellow pot Rose. It should be grown more largely, as it is excellent. Try it. Price, 10 cents each; 50 cents per dozen; $1.00 per hundred; four inch pots, $1.50 per dozen; $12.00 per hundred.

Bon Silene.

Grown by every florist for its highly-colored buds, dark crimson-rose, often changing to crimson. The buds are very handsome, and produced in great profusion. Price, two and a half inch pots, 10 cents each; 60 cents per dozen; $4.00 per hundred; four inch pots, $2.00 per dozen; $15.00 per hundred.

DUCHESS OF ALBANY.

We have no hesitancy whatever in saying to our customers that this Rose stands at the head of all Roses, not excepting La France. What we wish to impress is the fact that as a Rose for all purposes it has no peer. It is identical with La France excepting in three points. Those are: a more vigorous growth, a larger and more expanded flower, and a deep, even pink in color; not shaded, but what is called a solid color. Ladies prefer it on account of its beautiful color to any other Rose for personal adornment, as it shows up well against either light or dark dress goods to a charming advantage. The growth of the plant is exceedingly vigorous, and the flowers, which are thrown up well above the foliage, are produced in extraordinary profusion, the plant being covered with handsome flowers. You will make no mistake to plant this Rose largely. Price, two and a half inch pots, 10 cents each; 60 cents per dozen; $4.00 per hundred; four inch pots, $2.00 per dozen; $15.00 per hundred. We have twenty thousand of this elegant Rose in good health.

Queen of Bedders.

A Rose that is always scarce, being difficult of propagation, but when rooted a vigorous grower, and is a beauty. Clear, velvety-red, every shoot producing a cluster of buds and bloom of the largest size, making the best bedder. We have a fine stock. Price, two and a half inch pots, 10 cents each; $1.00 per dozen; $7.00 per hundred; four inch pots, $2.00 per dozen; $15.00 per hundred.
**NEW POLYANTHAA TEA ROSE, CLOTHILDE SOUPERT.**

This novelty introduces a new and remarkable class of bedding and pot roses, combining the Tea and Polyantha blood. It is of very strong, vigorous growth, forming a nice-shaped plant, and attaining about fifteen inches in height. The branches are not so crowded as is the case with most Polyanthus, but are more evenly disposed, and when grown form naturally a nice, symmetrical plant. Its color is a pearl-white, with a vivid carmine-rose center, which fades after a little, leaving the Rose almost white. It resembles the Hybrid Rosette de Nigie in form, and is almost as large when well grown. It is a constant bloomer, quite fragrant, and cannot fail to be a splendid market plant for growing in pots for spring sales. In addition to its suitability for market purposes, it will be very useful to the cut-flower worker, forming as it does, nice sprays of open flowers and half-open buds.

**MARK THE PREDICTION.—** A great many florists have been sive of this Rose. We presume it is because it is classed as a Polyantha. You make a mistake in not trying it, as it will, in a few years, outrank all other Roses for the general florist. Price, 10 cents each; 50 cents per dozen; $1.00 per hundred.

**Duchess de Brabant, or Contesse de la Barthe.**

This Rose combines exquisite perfume, beautiful coloring, and a matchless profusion of flowers and foliage. How shall we describe its coloring? A soft, light Rose, with heavy shading of amber and salmon. Quite hardy, and in every respect it is quite admirable. Price, 10 cents each; 50 cents per dozen; $1.00 per hundred; four inch pots, $1.50 per dozen; $12.00 per hundred.

**New Tea Rose, Ye Primrose Name.**

This Rose has quite astonished us with its great freedom of bloom, even small plants being covered with buds, after the fashion of the Polyanthus. The buds are of good size and pointed. The color is perfect, outer petals a delicate cream, with glowing carmine center, which shows in the earliest stage of opening. It will produce immense-sized buds on a strong plant that are certainly captivating. Price, 10 cents each; 50 cents per dozen; $1.00 per hundred.

**Duchess of Edinburgh.**

A splendid Rose, producing very large buds of the most intense deep crimson. It flowers freely and is very vigorous. A grand Rose. Price, 10 cents each; 50 cents per dozen; $1.00 per hundred; four inch pots, $1.50 per dozen; $12.00 per hundred.

**Reliel Ols de Wurttemburg.**

A splendid Rose, and should be grown where the Marechal Neil succeeds. This variety, as grown in the south of France, is simply indescribable. The people in the South would do well to employ this beautiful sort for covering verandas and trellises. Color a rosy-carmine, suffused with yellow. It is a vigorous healthy Rose, of dwarf, branching habit, and is simply loaded with flowers all Summer long, being even more profuse than most of the tender ever-blooming Roses. The flowers are large, perfectly double, and of a dazzling scarlet-crimson color, and have the rich, spicy fragrance peculiar to the best Hybrid Rose. We have proved the ‘Dinsmore’ to be entirely hardy, blooms incessantly, and is one of the most beautiful of all bedding Roses.” Price, 15 cents each; 75 cents per dozen; $6.00 per hundred.

The Novelty in Geraniums.  

Souvenir de Mirande.

The greatest novelty in new Geraniums that has appeared for a number of years is undoubtedly Souvenir de Mirande. It is entirely distinct from any other variety, known, and is quite different from the usual marked varieties that have from time to time made their appearance. It has round flowers, upper petals cream white, with a distinct rosy-pink border; lower petals salmon-rose, streaked with pure white. A most novel color. It is extremely free flowering and produces fine trusses of magnificent blooms. Mr. John Thorpe, ex-President American Society of Florists, said at the Buffalo meeting that it had made a leap of a decade in its advent. Price, strong plants, 60 cents per dozen; $1.00 per hundred.

The Superb New Single White Geranium, Marguerite de Larey.

We have a most beautiful pure white Zonal in this splendid variety. It seems as though Misses Brunat and Lemoine were running a race on the single white Geraniums; for in this and the variety La Vestale, of Lemoine, we have two superb varieties for this year. There is little choice between the two, but if anything La Vestale perhaps leads the open ground, whilst Marguerite des Larey is the finest for pot culture we have had for years. Price, $1.00 per dozen.

The Finest Double White Geranium for Bedding or Cemetery Planting, La Favorite.

This is without any doubt whatever the best double white Geranium ever introduced. It is so far ahead of all others that a comparison is not necessary. Many extra fine plants have some weakness. This has not, being a strong grower, a profuse bloomer and reliable in always coming perfect in color and substance. The trusses are very large. Flowers beautifully formed, of the purest white and retains its color in the sun, not drawing to a pinkish color, as does White Swan. Price, 50 cents per dozen; $4.00 per hundred.

White Swan.

In the White Swan we have the finest double white Geranium ever introduced, and, unlike other double white Geraniums, it is suitable for bedding, and flowers as profusely as the best single varieties. It is a dwarf, compact-growing variety, with handsome, banded foliage of a light healthy green. The perfect double flowers are unsurpassed for cut flowers. They are borne in large trusses, and are spotless, snowy-white, retaining their pure whiteness even in the heat of Summer. Price, 50 cents per dozen; $1.00 per hundred.

Souvenir de Mirande.

The two best Geraniums for Massing and General Planting.

Fire Brand.

Color dazzling flame scarlet, fine, prominent truss, flowers large and of great substance, an excellent bedder and pot plant. For planting in masses we have seen none to equal it. Another thing in its favor, it takes fewer plants from its sturdy branching habit to give effect. Price, 50 cents per dozen; $1.00 per hundred.

The Great Geranium, Brunat.

The giant among Geraniums. We consider this the best bedding Geranium of all varieties. The plant redounds in vigor, foliage strong, striking and of perfect habit. Color of the flowers is a bright vermilion-red of most pleasing shade. The flowers are absolutely perfect in shape, color and make-up; trusses exceptionally large and borne in immense spherical balls, often measuring eight inches in diameter. It makes a compact, dense growth, and has all the qualities that go to make the perfect bedder that it is. Fine also in pots. It is of the semi-double type (the most striking of all), only the double form takes place near the base of the petals, allowing them free development and at the same time showing the semi-double type. It embodies all the advantages of both types, the perfect development and free blooming qualities of the singles, the fullness and beauty of the doubles, without their great fault of having the flowers drop and dry off and become unsightly when planted outside. Price, 60 cents per dozen; $5.00 per hundred.

---BEST POT AND BEDDING SORTS---

We have a fine assortment of Double, Single and Scented varieties in all colors at 40 cents per dozen; $3.00 per hundred.

Spathulata.—Leaves tinted carmine and green.

There is no plant so profitable to the market florist to handle as the Hibiscus. Their rapid growth into large plants and their gorgeous blossoms, continuing through the whole Summer, give a long period in which to effect sales. Of the following sorts,

*Zebrinus.*—Petals scarlet, edged and striped with creamy-yellow and white. A unique variety.

**SMILAX.**

This very great climber is a great addition to our basket plants, possessing the rare qualities of delicate and tolerable dense foliage and vinering habit, admirably adapting it to clinging or drooping, as may be required. For using as a green with cut-flowers, it has no equal, its hard texture enabling it to keep for several days without wilting after being cut. It is also fine as a parlor or window plant. Price, 15 cents each; 50 cents per dozen; $2.50 per hundred.

**NEW DWARF EVER-BLOOMING CANNA, MADAME CROZY.**

The flowers of Madame Crozy are a flaming scarlet, bordered with gold, a marvelous combination of colors, having all the delicacy and loveliness of the finest orchid. It produces all the wealth, richness and tropical luxuriance of foliage of the common kinds, added to which is the gorgeousness of their flaming panicles of bloom, which are borne in immense heads at the terminus of every shoot. The individual flowers are five inches in diameter, and when the large size of the flowers and the large heads of bloom are taken in connection with the freedom with which it blooms, it makes one of the most attractive plants for building it can conceive of; it also makes elegant plants for the conservatory both Summer and Winter—in fact, it is one of the finest plants for conservatory decoration there is. Every shoot blooms, and as often as a head of bloom passes its prime another shoot passes beyond it; and each shoot flowers three, four or five times in succession. As the plants are constantly throwing up shoots from the ground they continue a mass of most gorgeous bloom. Price, 15 cents each; $1.25 per dozen; $10.00 per hundred.

**Canna, Star of ’91 The New Ever-Blooming Canna.**

As a pot plant for blooming, both Summer and Winter, this Canna is a novelty of immense importance. It has already become recognized as the most valuable and important flowering plants among those who grow it. It is utterly impossible to have a plant which is more easily grown or more effective in bloom. The enormous panicles of flowers which are borne continually, even on plants only a foot or two in height and in small pots is, indeed, marvelous, and the intense color of the blossoms makes each plants objects of the most effective beauty. We heartily believe it to be the finest of all Winter-blooming plants, and as a garden flower nothing can surpass it. Color intense brilliant scarlet, raved and bordered with pure gold. The best for pots. Price, 15 cents each; $1.25 per dozen; $10.00 per hundred. A plant of each variety, the two, for 25 cents.
LAING’S CELEBRATED STRAIN OF TUBEROUS-ROOTED BEGONIAS.

Messrs. John Laing & Sons, of England, are celebrated the world over for fine tuberos-rooted Begonias. You will find our collection the very best. Tuberos-rooted Begonias are among the handsomest of our Summer flowering bulbs. They are not grown to the extent they should be, as they require no more care than Geraniums, have as fine a range of color, and will bloom continuously throughout the Summer, even when Geraniums droop through lack of moisture and fail to unfold their flowers. Planted either in the rockery or flower border, they rival the Geraniums with their rich and varied colors, ranging from the most delicate shade of yellow and salmon to the most striking crimson and scarlet. It has only been known the last few years what a wonderful bedding plant the tuberos-rooted Begonia is. They are as easy to keep and plant as a potato. Plant about June 1, and you will have a mass of beautiful foliage set off with unsurpassed sprays of immense flowers, measuring from four to seven inches across. The shapely, glistening leaves gracefully drop to the ground and form a dense oval pyramid, crowned with an unbroken mass of flowers, immense size, endless in color, from the warm, rich, burning-scarlet, soft rose, golden-yellow, pure white, etc., making a most surprising sight to any one not familiar with them. They are smothered with bloom the entire season. The tubers can be taken up and stored like a Tuberose, and when perfectly dry covered with sawdust. They do as well and produce as rich an effect as the finest stove or greenhouse plant. They should be in every collection. You will like them. ANTIGONUM LEPTOPHUS, OR “THE QUEEN’S WREATH.”

A splendid climbing plant from Central Mexico, producing rose-colored flowers in racemes two feet long. The production of bloom is such as to give the resemblance of Roses at a distance, hence its name, Rosa de Montana, or Mountain Rose. Described by the discoverer as the most beautiful climber he had ever beheld. This is moderately hardy with protection. The vines are killed to the ground by frost, but it quickly shoots up in the Spring and develops its flowers from June until frost. This is one of the most lovely vines. One of customers in Texas says in her Fall order that every lady that saw her vines in bloom wanted one. She says no one can describe its beauty. This is, without doubt, the finest climbing vine grown. Try it. Price, 20 cents each: $3.00 per dozen.

We have a number of the best flowering sorts that will flower freely this coming Winter, both double and single flowered, in any color desired. We have strong plants that will bloom profusely this year. Price, 50 cents each: $3.50 per dozen.
Mexican Primrose.

A charming basket or pot plant just brought to notice. It is certainly a very worthy plant and no doubt will be called for by your customers. The flowers are of a beautiful, bright, clear pink color, veined with scarlet, and with a white center. The superb color, combined with airy grace and beautiful form, goes to make a flower which is in beauty perfection itself. The plant seldom grows over ten inches in height, but inclines to a trailing habit, spreading its branches out over the ground, or drooping over the sides of the pot. We offer live plants at 60 cts. per dozen; $4.00 per hundred.

New Achillea, THE GEM.

We take much pleasure in calling special attention to this plant, as it is one of the most beautiful and useful. It is a hardy perennial, the top dying down to the ground every Winter. A plant will produce hundreds, and even thousands of flowers the first Summer, but when established the second year they frequently have more than five thousand perfect flowers on a plant at the same time. It commences to bloom early in July, and is a perfect mass of beautiful flowers till frost, the same bloom keeping perfect two or three months. Its flowers are pure white, perfectly double, and produced in large sprays, making it one of the finest cut flowers for bouquets, vases, baskets, etc., or for any kind of decorations. For cemetery planting it is the most valuable of all flowers, as it is sure to thrive and bear its great profusion of snow-white flowers nearly the whole Summer for years and years. The plants we supply will have abundance of roots, with but little top. They will all grow rapidly and produce a beautiful of bloom this Summer. They can either be potted or planted in the open ground as soon as received. Price, 10 cents each; 60 cents per dozen; $4.00 per hundred.

AGAVE AMERICANA VARIEGATA, THE BEAUTIFUL CENTURY PLANT.

Nothing is more suitable for a fine tropical effect on the lawn than this variety of the magnificent Century Plant. They require no care, in fact literally take care of themselves and grow into beauty each year, rapidly making handsome ornaments for vases or veranda decoration. This variety has dark green leaves with a band of golden-yellow; very slowy. Price, fine plants, 25 cents each. They can only be sent by express.
PHLOX—HARLY PERENNIAL.

The new French varieties all carry very fine, distinct, pure colors, in great trusses, many of them beautifully shaded and marked with very distinct, clear, bright eyes. They require no care but dividing and resetting every second year. Their vigorous growth and freedom of bloom make them very useful plants, while they are unequalled in beauty. The improvement made in this beautiful class of plants is perhaps more marked than in any other section of the hardy herbaceous family. Instead of the thin flower, which were limited to lilac and white colors, we now have gorgeous flowers, combining all the different tints of rose, crimson, red and purple, to say nothing of the pure whites and salmon, with their distinct eyes. Perfectly hardy everywhere. Price, 10 cents each; or the set of six distinct kinds for 50 cents; $1.00 per hundred.

HOYA CARNOSA, OR WAX PLANT.

This is a most excellent plant for the house, standing the dry heat of a sitting room with impunity. One large plant we have produced over two thousand of its lovely blooms at one time completely filling the house and yard with its delightful fragrance. The flowers are star-shaped and waxy, coming in clusters. Very easy to get along with. Price, fine plants, 10 cents each; 60 cents per dozen; $6.00 per hundred.

VIOLETS.

Of all delightful perfumes, that of Violets is the most delicate and pleasing, and places the modest little blue flowers among our greatest favorites. Violets grow and bloom during the dead of Winter with no trouble whatever, if given a cool situation, but will not succeed in a warm place. A cold frame, from which the frost is rarely excluded, is their best location. The following two sorts are the best of all the Violets, and are distinct in color.

New Double White Perpetual Flowering Violet, Swanley White, or Queen of Fragrance.—Of all the white Violets this is the best. It is suitable for pot culture in the house or bedded out. In pots it grows luxuriantly and is loaded with flowers. It is not an uncommon sight to see as many as fifty large flowers open at once, presenting a beautiful sight, their delicious perfume filling a whole room. Price, 10 cents each; 50 cents per dozen; $1.00 per hundred.

Violet, Marie Louise.—The best blue variety. Price, 10 cents each; 50 cents per dozen: $1.00 per hundred.

The Moon Flower, Ipomoea Grandiflora.

THE MOON FLOWER.

IPOMOEA GRANDIFLORA.

If planted out in rich ground about May 1st in a situation where it has full exposure to the sun, it will attain a height (if given wire or string to twine on) of forty feet by October 1st, blooming abundantly the entire season. It is called "Moon Flower" from its rare peculiarity of blooming best at night, although it also expands its flowers in dull days. The flowers are pure white, from five to six inches in diameter, emitting a rich jessamine-like odor at night. This is a grand plant for the retail florist. Sells on sight. Price of the true "Moon Flower," 10 cents each; 40 cents per dozen: $3.00 per hundred.

**XEROXYLUM ASPHODELOIDES—TURKEY'S BEARD.**

A hardy perennial with evergreen, grass-like foliage of graceful appearance. The flower heads are six to ten inches long by three in diameter, borne on stalks two to four feet high. We have counted as many as ten stems on a single clump, but this number is unusual, two or three being the ordinary number. The following is from *The Garden*, London: "Turkey's Beard (Xerophyllum Asphodeloides) is one of those old-fashioned plants that are rare in gardens. Two splendid masses were exhibited by Lord Walsingham, Merton Hall, at the recent Royal Botanical Show, and were the prettiest things among hardy flowers.* * *" Given an award of merit by the Royal Horticultural Society on June 30, 1885, and at a previous exhibition it was given a first-class certificate. **PRIMROSE—CHINESE.**

Few house plants afford better satisfaction than this. It requires to be kept cool, a north window suitin it best. The plants we offer are fine, and the colors are pleasing. Fine plants, Single Pink and White, 10 cents each: 50 cents per dozen: $1.00 per hundred.

**SOLANUM JASMINOIDES GRANDIFLORUM.**

This beautiful new plant is of a trailing or climbing habit, but seldom attains a greater height than three or four feet, and if desired can then be cut back to a bush form. They are in color a pure white, with violet tinge on the back. **Price. 10 cents each: 50 cents per dozen: $1.00 per hundred.**

THE CHAMPION AUTOMATIC VENTILATOR.

A Perspective View from Inside of House, showing Operating Wheel and Connections to one Sash, and also Enlarged View of Coupling and Rods.

Patented Feb. 21, 1893.

I claim, and can substantiate the claim, that I have in the CHAMPION AUTOMATIC VENTILATOR by far the best machine on the market. It does away with all shafting, raising all sash the same height under all conditions—an important point in its favor. One revolution of the operating wheel is equal to ten revolutions of the worm gear ventilators, and doing this with less labor, and is, therefore, a great saving of time. It can be operated in any position, and in any kind of a house, is cheaper, and is so simple that any inexperienced person can place it in position for operation. Send for estimates on ventilation, giving number and length of houses, and number of sash to raise. Send for my illustrated descriptive circular, explaining the Ventilator more fully.

**CHAMPION SOIL PULVERIZER AND SIFTER.**

This is a very simple machine, and will do the work of twenty men using the common soil screen, thoroughly pulverizing all roots, manure, and soil, mixing the same in the operation of sifting. Address for information, prices and descriptive circulars, both for the CHAMPION AUTOMATIC VENTILATOR and CHAMPION SOIL PULVERIZER AND SIFTER.

Box 114.

SPRINGFIELD, OHIO, FEBRUARY 15, 1893.

It gives us great pleasure to give our hearty endorsement, both to the Ventilating Machine and Soil Sifter of Mr. Wolf, having them in use on our place. We have seen all the ventilating machines now in use, and none of them compare in any way with the Champion Automatic. It operates with great ease and perfection sash in any position or on any kind of a house. If you want the best ventilator, you will make a grave mistake not to investigate this machine before purchasing. With his Soil Sifter we do the work in one hour that used to take two days to do. We have no interest in either of the above machines in any way, but it gives us great pleasure to give them our unqualified endorsement.
